CIRCULAR

Sub: Monsoon Preparedness 2025

In view of severe weather conditions during the monsoon period in Arabian Sea, all concerned are required to adhere to the guidelines issued by DG Shipping/CG and safe practices of seamanship from time to time for monsoon weather conditions and also issued by various competent authorities.

In addition, following points to be included for Premonsoon/Monsoon weather preparedness but should not limited to –

1. Agents/Owners/Managers/Masters to ensure the foul weather preparedness of their crafts /vessels.
2. All crafts to be manned as per manning requirements
3. All running crafts to have sufficient bunkers/provisions/Fresh waters in reserve, keeping in mind the prevailing weather conditions.
4. The vessels to keep their engines at short notice, keeping prevailing weather conditions in mind.
5. All life saving equipments/items are to be checked and are to be known to all crew on board location.
6. Monitoring of weather forecast by all available means and technology, Preventive and precautionary measures to taken as per prevailing weather condition, suggested IMD weather site for Deendayal Port location is <https://mausam.imd.gov.in/ahmedabad/> Also monitor Port Control VHF instructions on VHF Ch. 08 during disturbed weather time.
7. The vessels in port and anchorage will keep their main engines at immediate notice for motoring and keep watch on VHF Channel 08/16. The latest navigational warning and storm warnings/storm signals issued by Port Authorities for the local Port area from time to time should also to be taken heed.
8. Agents/Owners/Managers/Charterers to ensure that the master is aware and provided with regular update of weather forecast and ensure the compliance of safe practices.
9. Agents/Owners/Managers/Charterers of all derelict vessels inside the harbour either to remove their respective derelict vessel/craft from Harbour Waters or to take all precautions for their safekeeping inside harbour.
10. Agents/Owners/Managers/Charterers/Master of a craft without propulsion to ensure that standby Tug/Tugs of suitable capacity and numbers with respect to prevailing weather is/are available with subject craft/vessel without propulsion.
11. Agents/Owners/Managers/Charterers/Master will be held responsible for any negligence or any incident/accident due to non-compliance of above mentioned guidelines.
12. All statutory certificates including but not limiting to P&I Certificate etc. should remain valid at all times.
13. Any violation of above will be considered as Non-Compliance.
